Objective

Curious computer science major focused on writing quality and reliable code, with practical experience in developing and maintaining Node Js apis. Looking to be part of a great development team to make an impact and build innovative products.

Education

Bachelor of Science in Computer Science
University of Benin, Nigeria
2018 - 2022

Work Experience

Back-end Developer (NODE JS)

Side Hustle Boot camp

April 2022 - May 2022

- Built a payment gateway powered by node js and the flutterwave fin-tech API
- Worked with the front-end and product management teams to gather requirements
- Ensured the application code was clean and maintainable
- Documented the entire API and employed version control with git
- Collaborated with the front-end developers to integrate the API on the front-end

Back-end Developer Intern (NODE JS)

Side Hustle Internship

June 2022 - July 2022

- Scored an average of 70% in all weekly tests
- Got a scholars badge for getting an A in a project
- Lead a back-end development team in requirements gathering to build a real estate API
